- Front-End Skills: HTML, CSS
- Web and Application Servers
- JavaScript Libraries and Frameworks
- Azure Deployment
- Databases: Oracle, SQL Server, MongoDB
- TypeScript
- French

SUMMARY

User-minded Web Developer with a background in mental health. Able to translate skills in teaching and implementing evidence-based practices to effectively communicate with clients and create purposeful web solutions. Driven to grow expertise in website development by utilizing an analytical mindset and creativity to design responsive apps from start to finish.

WEB DEVELOPMENT PROJECTS

Client-Side Programming & React, February 2023 - April 2023
- Created a non-relational database (MongoDB) of movements from various styles and to store user data.
- Built a REST-API with Node.js and Express, using Mongoose to interact with the database.
- Tested the API endpoints with Postman, wrote clean and concise documentation, deployed the API with https://render.com/.
- Created two single-page, responsive front-end applications, one using React (following MVC design patter) and the other Angular (with Angular Material). Users can create accounts, browse the library, and save their favorites. https://zaflix.netlify.app/login

React Native Mobile Chat App, July 2023- August 2023
- Programmed app in React Native and developed using Expo.
- Stored the chat conversation in Google Firestore Database.
- Let users pick and send images from the phone's image library.
- Allowed users to store images in Firebase Cloud Storage and read user's location data. https://github.com/abuyusr/chat-app

EXPERIENCE

ASSISTANT MANAGER

Albryte Support Services | Sterling, VA | December 2020 - Current

- Leveraged database management system to track and report service hours, details of activities and progress on goals.
