ZA

ZAKARIA ABDI

SUMMARY

User-minded Web Developer with a background in mental health. Able to translate skills in teaching and implementing evidence-based practices to effectively communicate with clients and create purposeful web solutions. Driven to grow expertise in website development by utilizing an analytical mindset and creativity to design responsive apps from start to finish.

WEB DEVELOPMENT PROJECTS

Cloud Computing, September 2023- December 2023
• Deployed a three-tier web application on Amazon Web Services
• Run MongoDB and the API will on EC2 instances.
• Hosted React Client as a static website in an S3 bucket.
• Integrated AWS Software Development Kit (SDK) into API.
http://zack-lambda-bucket.s3-website-us-east-1.amazonaws.com
Client-Side Programming & React, February 2023 - April 2023
• Created a non-relational database (MongoDB) of movements from various styles and to store user data.
• Built a REST-API with Node.js and Express, using Mongoose to interact with the database.
• Tested the API endpoints with Postman, wrote clean and concise documentation, deployed the API with https://render.com/.
• Created two single-page, responsive front-end applications, one using React (following MVC design patter) and the other Angular (with Angular Material). Users can create accounts, browse the library, and save their favorites.
